

June Kim

Machine Learning Engineer

junejinns@gmail.com | linkedin.com/in/june3

EDUCATION

University of Illinois Urbana-Champaign Master of Computer Science (Online), GPA 3.67/4.0	Aug. 2025 – Present
Chung-Ang University B.E. in Digital Imaging Engineering, GPA 3.99/4.5, Cum Laude	Mar. 2017 – Feb. 2020
Chungbuk National University Civil Engineering, transferred to Chung-Ang	Mar. 2011 – Feb. 2017
POSCO AI & Big Data Academy AI bootcamp	Jun. – Sep. 2019

EXPERIENCE

SNOW Corp. Machine Learning Engineer	Aug. 2023 – Present
• Fine-tune the models behind a consumer photo-editing app: diffusion for inpainting/outpainting, segmentation for background removal. • Serve the models behind an inference API on in-house GPUs, under a fixed GPU budget. • Prototype new editing features to find what people would actually use, most recently beauty retouching.	
NAVER Z Corp. Unity Client Engineer	Apr. 2022 – Aug. 2023
• Developed editor features, including the UI system, for a 3D social avatar platform's world editor. • Optimized terrain rendering with custom Unity shaders.	
SNOW Corp. AR Software Engineer	Dec. 2019 – Apr. 2022
• Developed real-time AR camera effects with face tracking for mobile apps. • Built plugins for the in-house tools used to make camera effects.	
Republic of Korea Air Force , Military Police, mandatory service	Sep. 2011 – Sep. 2013

RESEARCH AND PROJECTS

Volumetric Video Challenge , SIGGRAPH Asia 2026 Workshop, Sparse-View Track	Jul. – Sep. 2026
• Reconstructed dynamic scenes from six cameras with 4D Gaussian splatting; ranked 8th of 15.	
NTIRE 2026 Shadow Removal Challenge , CVPR 2026 Workshop	Jan. – Mar. 2026
• Trained shadow-removal models for the official benchmark; ranked 14th of 22.	
POSTECH Institute of Artificial Intelligence , Research Intern	Oct. – Nov. 2019
• Ran visual SLAM for 3D map reconstruction on the TUM dataset with ROS.	
Intel AI Drone Competition , Team Lead	Aug. 2019
• Built the drone's on-board vision system with a classifier ported to OpenVINO.	

SKILLS

- **ML:** PyTorch, Diffusers, diffusion models, LoRA fine-tuning, image segmentation
- **Engineering:** Python, C++, OpenCV, FastAPI, BentoML, Docker, Kubernetes, Linux
- **Graphics:** C#, Unity, Lua, GLSL
- **Languages:** Korean (native), English (IELTS Academic 7.0)
